Communication Plan:

The following section outlines the communication strategy adopted during the development of the EduGenie platform. It describes the communication channels, reporting methods, and feedback mechanisms used to ensure effective collaboration throughout the project.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Discord	Three Members	To discuss daily progress, tasks, and resolve blockers.
2	Progress Update	Weekly	Discord	Three Members	To demonstrate finished features and plan upcoming sprints.
3	Issue / Bug Discussion	As Needed	Discord / GitHub	Three Members	To resolve debugging issues and code errors.
4	Stakeholder Review	Bi-Weekly	Email	Three Members	To report milestone completions to the evaluator.
5	Final Demo Rehearsal	Once	Google Meet	Three Members	To run through the final project demonstration.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Integrating Gemini API and handling RAG documents efficiently.	Utilized PyPDF2 and python-docx for text extraction, and built a custom sliding-window text chunker for context feeding.
2	Structuring Jinja2 dynamic template rendering with FastAPI.	Organized separate page and API routers in FastAPI and mounted static directories cleanly.
